

OEM Replacement Gaskets and DPF Module V-Band Clamps

2007 brought significant change to the OEM truck market, most notably the advent of the diesel particulate filter (DPF) required on nearly every diesel engine produced. DPF's will replace the muffler. With this DPF technology comes added service requirements and the new products that are associated with those requirements. Dynaflex Products is committed to bringing you a one-stop-shop catalog of quality emission system service parts aimed at alleviating all of your DPF maintenance needs.
